PHOEBIE'S LEARNING LAB · THANKSGIVING MINI-PACK

Turkey times 11

Name _____

Date _____

The trick: split the two digits, add them, and write the sum in the middle. 23 × 11 → 2, (2+3), 3 → **253**. If the middle is 10 or more, carry 1 to the left: 59 × 11 → 5, 14, 9 → **649**.

23 × 11 =	34 × 11 =	52 × 11 =
71 × 11 =	45 × 11 =	18 × 11 =
36 × 11 =	63 × 11 =	27 × 11 =
48 × 11 =	59 × 11 =	87 × 11 =

Say the trick out loud as you go: "first digit, add the middle, last digit." Check with a grown-up after six.

Pumpkin pie halves

Name _____

Date _____

The trick: halve the even number and double the 5. 14 × 5 → 7 × 10 = **70**. The answer stays the same because the 2 just moves across.

12 × 5 =	14 × 5 =	16 × 5 =
18 × 5 =	22 × 5 =	24 × 5 =
26 × 5 =	28 × 5 =	32 × 5 =
36 × 5 =	44 × 5 =	48 × 5 =

Write the easy problem underneath first (7 × 10), then the answer. Fast finishers: try 15 × 24 the same way.

Trace 谢谢 and 感恩 🙏
